Blumira

SIEM Starter: Meet Compliance, Stay Secure – All Within Budget

Easily meet compliance with a SIEM that meets your budget, with one year of data retention and monitoring for your entire environment – including endpoint detections.

CHALLENGE

SIEMs have long been too complex, costly, and burdensome to manage by small IT teams.

- Costs rise rapidly based on the amount of data ingested by a SIEM, causing unpredictable fees
- Meeting compliance requirements for one year of data retention can be too expensive as a result
- Complexity of setup requires security expertise & can be time-consuming

SOLUTION

Blumira's SIEM Starter helps you meet compliance easily without breaking your budget, with one year of data retention and monitoring for your entire environment – including endpoint detections.

SIEM Starter:
- **Meets compliance needs** with 1 year of retention (previously 90 days)
- **Monitors security of entire environment** with access to over 130+ integrations, including endpoint detections (previously only cloud integrations, no sensor)
- **Fits SMB budgets** with greater value for your spend (previously $15/employee, now $12/employee – 20% discount)
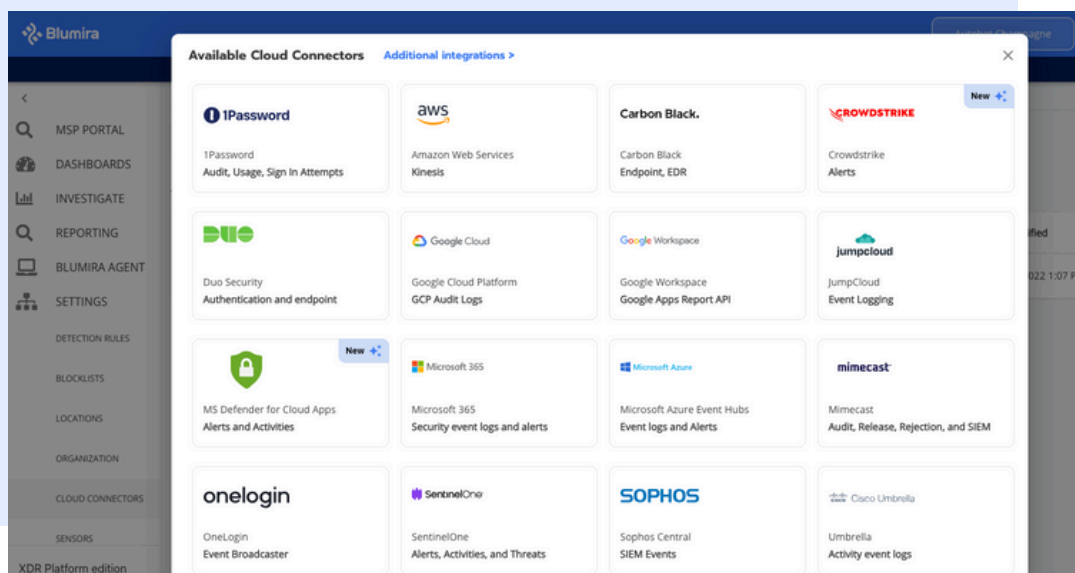

Ranked High Performer on G2

Blumira

EASY TO SET UP

Deploy in hours, with your existing team & resources

FAST DETECTION

Get notified of threats in under a minute of initial detection

EASY TO USE

Designed for 1-3 people teams to easily manage security in 15 minutes a day

SIEM STARTER INCLUDES EVERYTHING IN FREE SIEM:

- **Easy, guided setup** through Cloud Connectors in minutes
- **Actionable findings** surfaced by Blumira's automated detection and response
- **Rule insight** – see all active detection rules automatically deployed
- **Detection rule management** to turn on/off rules to reduce noise
- **Managed detections** are maintained by our engineers (real-time only for free users. Paid editions get all detections for anomalies over time)
- **A summary dashboard** of your rules, connection status and security reports

PLUS:

- **1 year of data retention**, critical for investigation and compliance
- **Access to all integrations** (Cloud Connectors & sensors) for greater coverage
- **Endpoint detections** delivered via sensor
- **Option to add Blumira Agent** for easy endpoint detection deployment
- **Customer support** for urgent priority issues from 9am-8pm ET
- **White glove onboarding** with a dedicated Solution Architect, one-time fee required ($250)
- **Advanced reporting & dashboards** to see security trends & send scheduled reports. Includes pre-built compliance reports and Executive Summaries (quarterly only).
- **Detection filters** to further customize rules to suit your organization's needs

CUSTOMER SATISFACTION SCORE

RATING BLUMIRA'S TECH/SECURITY TEAMS

"It made me very happy that the cost didn't vary based on the amount of information sent to Blumira. **There's no storage limit; no limit on the number of records sent to the database. A lot of Blumira's logic rules and alerts are pre-built.** All of those things made it a much easier implementation for us. A lot of the other solutions out there put the onus on us to do those things.

-- Craig Rhinehart, CIO, Robinson, Grimes & Co

DEMO SIEM + XDR

Blumira makes security easy and effective for SMBs, helping them detect and respond to cybersecurity threats faster to stop breaches and ransomware.
