Preview Line: Get access to the industry's only free cloud SIEM with detection and response!

Hi (name/there),

We're excited to introduce Blumira's Free edition, the industry's only free cloud SIEM with integrated detection and response!

The image shows a promotional graphic for Blumira's Free SIEM for Sm(All) Teams. The graphic has a blue background with white and green text. It includes a call to action to contact a partner for the free edition, a note that no credit card is required and deployment is in seconds, and a screenshot of the Blumira dashboard. The dashboard shows various security metrics and a finding related to Microsoft 365 email forwarding.

Free SIEM for Sm(All) Teams.

Blumira's goal is to make security accessible and affordable for all organizations – their new free SIEM is a big step in that direction.

With Blumira's free edition, you'll get:

- Security monitoring for Microsoft 365 to detect critical threats
- Security playbooks that walk you through how to respond to a finding
- The ability to deploy a SIEM in minutes without additional infrastructure
- Log collection for unlimited data and users
- Basic reporting and ongoing, automated detection rule updates
- One week of log data retention

In just minutes, you can get the free edition up and running! Contact your partner to request a free edition account today.

All Free users can upgrade to paid editions (including Microsoft 365, Cloud, and Advanced) to unlock access to Blumira's 24/7 security operations team support for urgent priority issues, as well as onboarding guidance and longer data retention.
