

## Blumira's XDR Platform

### FOR SMALL & MEDIUM-SIZED BUSINESSES

*Lean IT teams struggle to defend against cyberattacks and meet compliance requirements.*

#### TIME-STRAPPED

Managing security tools requires threat hunting, managing rules, parsing data, developing integrations and more.

#### NO 24/7 TEAM

Lean IT teams struggle due to high costs of enterprise solutions, talent shortage and lack of security expertise.

#### COMPLEXITY

Too many disparate solutions results in redundancies and lack of visibility into remote endpoint risks.

## BLUMIRA IS EASY, EFFECTIVE & EFFICIENT

#### EASY

Reduce reliance on humans to complete manual security tasks to save time and refocus efforts

#### EFFECTIVE

Accelerate breach prevention and ransomware protection with security automation

#### EFFICIENT

All-in-one open platform simplifies workflows with hybrid coverage, satisfying more compliance controls

## THE BLUMIRA VALUE

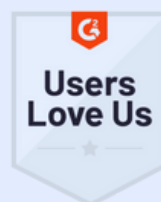

Blumira's SIEM + XDR platform makes advanced detection and response easy and effective for small and medium-sized businesses, accelerating ransomware and breach prevention.

Time-strapped IT teams can do more with one solution that combines SIEM, endpoint visibility and automated response.

**Blumira does the heavy lifting** to pare down the overwhelming amount of data from logs into actionable events. That allows us to focus on revenue-enhancing activities.

Michael Cross, CIO

VOTED BY USERS ON G2:

- MOMENTUM LEADER
- BEST ROI
- EASIEST TO USE
- LIKELY TO RECOMMEND

## BLUMIRA FREE SIEM

- ✓ **Coverage for up to 3 cloud integrations**, including: Microsoft 365, Duo, SentinelOne, Umbrella, Webroot, Mimecast and Google Workspace
- ✓ **Easy, guided setup** with Cloud Connectors -- in minutes
- ✓ **Managed detections** automatically rolled out to your account, tuned for noise
- ✓ **Summary dashboard** of key findings and security reports
- ✓ **Playbooks** with each finding to guide you through response steps
- ✓ **Unlimited log ingestion**, at no additional cost
- ✓ **Two weeks of data retention** -- upgrade for up to one year

## UPGRADE FOR:

- **24/7 Security Operations (SecOps)** support for critical priority issues
- **Automated response** to contain and block threats immediately
- **One year of data retention** and option to extend to satisfy compliance
- **Advanced reporting** and dashboards for forensics and easy investigation
- **Lightweight agent** for endpoint visibility and response

And more -- see a full list of features on [blumira.com/pricing](https://blumira.com/pricing)

## Easy for MSPs & SMBs

*"I just finished setting up Blumira, and one word: WOW! I like the simplicity of your product and the easy-to-follow instructions for setting up logging. I am sold on Blumira's ease of use and capabilities."*

-- Amitaf DaSilva, Principal, CompuNET Consulting (MSP)
